

DEGREE: MSc Data Analytics

Module: Visualization and Story Telling using Tableau

Assignment Title: Exploring Urban Mobility and Public Transport Performance using Tableau

Assignment Type: Practical skills assessment

Word Limit: 2000 words (+/- 300)

Weighting: 40%

Issue Date: 18/06/2026

Submission Date: / 15/09/2026

Feedback Date: 06/10/2026

Issued by: Dr. Abdelaziz Triki

Plagiarism:

When submitting work for assessment, students should be aware of the InterActive/Canvas guidance and regulations in concerning plagiarism. All submissions should be your own, original work.

You must submit an electronic copy of your work. Your submission will be electronically checked.

Learner declaration		
Word count		
Use of proof-reader/proof-reading service (see guidance contained in Academic Misconduct Regulations on appropriate use)	YES	NO

If 'yes', please specify which service (e.g. Grammarly, Studiosity etc.)		
I confirm that I submit this work as my own work and that I have cited all sources I have used, and I understand that using sources without citing them correctly may be considered as Academic Misconduct.	YES	NO
I confirm that I have followed guidance on the acceptable use of AI tools for this assignment where such guidance has been issued by my tutors.	YES	NO
Where use of appropriately cited use of AI tools is permitted, I confirm that I have cited in accordance with the UCA Harvard Referencing Standard.	YES	NO

Harvard Referencing:

The Harvard Referencing System must be used. The Wikipedia, UKEssays.com or similar websites must **not** be used or referenced in your work.

By submitting this assessment, you are confirming that you have understood and are complying with the University's Academic Misconduct Regulations.

Plagiarism Detection (Turnitin)

BSBI uses Turnitin (an on-line text matching tool) to help identify cases of plagiarism. Turnitin will compare a submitted assignment with a database of journal articles, books, web pages and previously submitted assignments.

Introduction

Urban mobility analytics helps transport authorities understand how people move across a city, how public transport services perform, and how transport systems can become more efficient, accessible, and sustainable. Tableau allows analysts to transform transport data into interactive dashboards that support evidence-based decision making.

This assessment focuses on the practical use of Tableau to analyse public transport usage, route performance, passenger demand, delays, regional differences, and sustainability related indicators. You are expected to demonstrate technical Tableau skills, analytical interpretation, and professional visual communication.

LO1	Demonstrate the understanding of the basic, as well as advanced features and attributes of visualization, for communicating results and findings of analysis to business users in effective and efficient manner
LO2	Explain various types of data, its exploration and representing the data with meaningful visualization following the best practices using the features of Tableau
LO3	Build meaningful, effective and efficient reports, dashboards and stories using Tableau's basic and advanced features

Tasks (LO1, LO2, LO3):

You are required to act as a junior data analyst working for a city transport authority. The authority wants to understand public transport usage, service performance, passenger trends, route efficiency, delay patterns, regional differences, and sustainability indicators.

Your task is to select, prepare, analyse, visualise, and interpret a relevant urban mobility or public transport dataset using Tableau.

Your analysis should investigate questions such as:

- Which routes, stations, areas, or transport modes show the highest passenger demand?
- How does transport usage change by time, day, month, season, or location?
- Which routes or stations show delay patterns or operational inefficiencies?
- Are there differences between transport modes such as bus, metro, tram, rail, cycling, or shared mobility?

- What sustainability indicators can be visualised, such as CO2 reduction, modal shift, or public transport adoption?
- How can Tableau dashboards help city managers improve transport planning and operational decisions?

Dataset Selection and Preparation

- You must select a reliable dataset related to urban mobility, public transport, transport performance, passenger demand, or sustainability.
- Suitable sources may include government open data portals, city transport authority datasets, World Bank data, OECD data, European Union open data portals, Kaggle datasets, or academic repositories. Simulated datasets may only be used when a real dataset is not suitable, and must be clearly justified, realistic, documented, and approved by the lecturer.
- The dataset should include at least 1000 observations and should contain variables suitable for visual analysis, such as date, time, location, route, transport mode, passenger count, delay duration, service frequency, distance, emissions, or satisfaction score.
- You must explain the dataset source, structure, main variables, data types, cleaning steps, missing values, duplicate records, formatting changes, transformations, and limitations.

Tableau Visualisation Requirements

- You must create between **five and seven** Tableau visualisations. Each visualisation must have a clear analytical purpose and must contribute to answering the transport authority's decision-making needs.
- Your work should include a suitable variety of visualisation types, such as bar charts, line charts, maps, heat maps, scatter plots, highlight tables, treemaps, KPI cards, area charts, or dual axis charts where appropriate.
- You must demonstrate practical use of Tableau features, including dimensions and measures, filters, calculated fields, parameters, date functions, sorting and grouping, hierarchies, colour encoding, tooltips, and interactive dashboard actions.

Dashboard Design Requirements

You must combine your most effective visualisations into at **least one interactive Tableau dashboard**.

Possible dashboard themes include:

- Urban Mobility Overview Dashboard
- Route and Passenger Demand Dashboard
- Delay and Service Performance Dashboard
- Sustainability and Transport Mode Dashboard

Your dashboard must demonstrate a clear layout, logical visual flow, appropriate chart selection, effective colour use, readable titles and labels, useful filters, clear tooltips, and meaningful interactivity. It should be designed for **non-technical decision makers**, such as city managers, transport planners, or public service administrators.

To address the storytelling focus of the module, you must also include a short dashboard narrative. This may be presented either as a **Tableau Story** or as a clearly written explanation in the report. The narrative should explain the key insights, highlight important trends or problems, and show how the dashboard can support practical transport planning decisions.

Required Screenshots and Links

You must include screenshots of your Tableau worksheets and final dashboard in the appendix of your report. You must also provide the dataset source link or submit the dataset file used in your analysis.

For the Tableau output, you must submit **one** of the following:

- A Tableau Public link to your published dashboard, or
- A packaged Tableau workbook file **.twbx**

A **.twbx** file is preferred if you are not using Tableau Public, because it includes the workbook and the connected dataset.

A **.twb** file should only be submitted if the dataset file is also submitted separately and the workbook connection can be opened correctly.

Submission Requirements

You must submit:

- The written report using BSBI assignment template
- the Tableau workbook or Tableau Public link
- The dataset file or dataset source link
- Screenshots of the visualisations and dashboard
- Harvard reference list, including the dataset source and any external sources used.

Assessment Focus

Your work will be assessed on the quality of dataset selection and preparation, the appropriateness and variety of Tableau visualisations, the effective use of Tableau features, the clarity and usability of the dashboard, the depth of analytical interpretation, the quality of visual communication, and the professionalism of the written report.

Students are encouraged to explore additional reputable sources in the digital library beyond the list provided to strengthen their individual research and critical analysis skills. The unit lecturer can help with recommending additional literature.

The criteria for successfully passing the units with two assessment components require passing both components successfully. Passing marks for BSc and MA/MSc levels are different and are stated at the end of the assignment brief. Please find the examples below:

- **Example 1** (e.g., pass mark: 50)
 - Component 1 (50% weighting) - 55
 - Component 2 (50% weighting) - 55
 - Final average: 55
 - Result: **Pass (both components passed and therefore the unit is passed)**
- **Example 2** (e.g., pass mark: 50)
 - Component 1 (50% weighting) – 80
 - Component 2 (50% weighting) – 30
 - Final average: 55
 - Result: **Fail (because although the average is above 50, one of the components is a failure)**

EXPERIMENTATION & INNOVATION								
	FAIL			PASS				
Threshold Criteria	0-29%	30-39%	40-49%	50-59%	60-69%	70-79%	80-89%	90-100%
Deals with complex issues both systematically and creatively demonstrating self-direction and originality in tackling and solving problems	Little to no ability to use techniques to deal with complex issues systematically (including those of ethics and sustainability) and creatively to solve problems and/or make decisions.	Low utilisation of established techniques to deal with complex issues systematically (including those of ethics and sustainability) and creatively to solve problems and/or make decisions, but with limitations in techniques or approach.	Limited research or advanced scholarship to their area of study by using a range of information and established and advanced techniques	Competent understanding of solving problems, through own research or advanced scholarship displaying a comprehensive understanding of established and advanced techniques	Good understanding of solving problems through own research and advanced scholarship critically selecting and displaying a comprehensive understanding of established and advanced techniques.	Very Good problem-solving skills displaying a comprehensive understanding of techniques applicable to their own research or advanced scholarship	Excellent range of extremely well-developed problem-solving displaying an understanding of techniques applicable to their own research or advanced scholarship beyond which is taught.	Exceptional problem-solving skills with sophisticated evaluation and application of a wide range of advanced information and techniques to undertake projects.
Comprehensive understanding of techniques applicable to their own research or advanced scholarship	Little to no understanding of techniques applicable to their own research or advanced scholarship or their limitations and ambiguities.	Low understanding of techniques applicable to their own research or advanced scholarship including their limitations and ambiguities.	Limited understanding of key techniques applicable to their own research or advanced scholarship including their limitations and ambiguities.	Competent understanding of techniques applicable to their own research or advanced scholarship including their limitations and ambiguities	Good understanding of techniques applicable to their own research or advanced scholarship and a some understanding of more specialised techniques.	Very good understanding of techniques applicable to their own research or advanced scholarship and a some understanding of more specialised techniques.	Excellent understanding of techniques applicable to their own research or advanced scholarship and mastery of some more specialised areas.	Exceptional understanding of techniques applicable to their own research or advanced scholarship and mastery of some more specialised areas.

RESEARCH & ANALYSIS								
	FAIL			PASS				
Threshold Criteria	0-29%	30-39%	40-49%	50-59%	60-69%	70-79%	80-89%	90-100%
Systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice	Little to no knowledge of the subject with limited breadth or depth or deficiencies in major areas or currency.	Low knowledge of the subject lacking coherence, breadth, or detail with only some reference to ideas or arguments at the forefront of any part of the subject.	Limited knowledge to deal with terminology, facts and concepts some of which is informed by the forefront of defined areas of the subject.	Competent knowledge of ideas or arguments at the forefront of any part of the subject sufficient to deal with current issues in the discipline, generally more descriptive than critical or analytical.	Good knowledge of ideas or arguments at the forefront of any part of the subject showing a clear, critical insight into the discipline as whole and current issues/problems.	Very good knowledge of ideas or arguments at the forefront of the subject some of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.	Excellent knowledge of ideas or arguments at the forefront of the subject many of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.	Exceptional knowledge of ideas or arguments at the forefront of the subject most of which are significantly beyond what has been taught and show a critical insight into the discipline and current issues/problems.
Conceptual understanding that enables the student to display originality in the application of knowledge	Little to no conceptual understanding or argument and a focus on descriptive explanations which do not comment on arguments of others or alternative views.	Low conceptual understanding and arguments are weak or poorly constructed, and the work does not critically evaluate the arguments of others or consider alternative views.	Limited conceptual understanding and argument construction with critical evaluation of alternative views or comment on advanced scholarship.	Competent conceptual understanding and argument construction with critical evaluation of a range of views and consistent engagement with advanced scholarship.	Good conceptual understanding which critically evaluate and synthesise other views and information with a thoughtful interpretation of advanced scholarship.	Very good conceptual understanding which systematically synthesises a wide range of views with a critical insight into advanced scholarship.	Excellent conceptual understanding which critically apply a wide range of views through a perceptive use of advanced scholarship.	Exceptional conceptual understanding of publishable quality with systematic engagement and usage of advanced scholarship.

ENGAGING WITH PRACTICE								
	FAIL			PASS				
Threshold Criteria	0-29%	30-39%	40-49%	50-59%	60-69%	70-79%	80-89%	90-100%
Practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline	Little to no evidence of background investigation, analysis, research, enquiry, ethical awareness, and/or study.	Low evidence of background investigation, analysis, research, enquiry, ethical awareness, and/or study.	Limited background investigation, analysis, research, enquiry, ethical awareness, and/or study using established techniques, with the ability to extract relevant points.	Competent investigation, analysis, research, enquiry, ethical awareness, and/or study using established techniques accurately, and can critically appraise and use academic sources.	Good background investigation, analysis, research, enquiry, ethical awareness, and/or study using established techniques accurately, and possesses a well-developed ability to critically appraise a wide range of sources.	Very good, independent, extensive and appropriate investigation, analysis, research, enquiry, ethical awareness, and/or study beyond the usual range, and critically evaluates this to advance the work and/or direct arguments.	Excellent independent, extensive and appropriate investigation, analysis, research, enquiry, ethical awareness, and/or study well beyond the usual range, and critically evaluates this to advance the work and/or direct arguments.	Exceptional investigation, analysis, research, enquiry, ethical awareness, and/or study which demonstrates carefully considered depth and breadth and critically synthesises this to advance the work and/or direct arguments.
Originality in the application of knowledge	Little to no technical, creative or artistic skills related to their area of study.	Low technical, creative or artistic skills related to their area of study.	Limited technical, creative or artistic skills required for area of study.	Competent technical, creative or artistic skills required for area of study.	Good technical, creative or artistic skills required for area of study.	Very good range of technical, creative or artistic skills.	Excellent range of technical, creative or artistic skills	Exceptional range of technical, creative or artistic skills
Independently advance your own knowledge and understanding, and to develop new skills to a high level.	Little to no contribution to group activity and/or undertaking further training at a high/advanced level.	Low contribution to group activity and/or undertaking further training at a high/advanced level.	Limited contribution to group activity and/or undertaking further training at a high/advanced level.	Competent contribution to group activity and/or independently undertakes further training at a high/advanced level.	Good contribution to group activity and/or independently undertakes further training at a high/advanced level with an understanding of team roles	Very good contribution to group activity and/or independently undertakes further training at a high/advanced level with an understanding of team roles	Excellent contribution to group activity and/or independently undertakes further training at a high/advanced level with teamwork and leadership	Exceptional contribution to group activity and/or independently undertakes further training at a high/advanced level with teamwork and strong leadership.
